d. User Management
   i. Login
   ii. SignUp
   iii. Update Profile
e. Auction Portal (Post Mid-Review)
f. Content Management Pages (Post Mid-Review)
g. Search (Post Mid-Review)

## FUNCTIONAL REQUIREMENTS THAT COULDN'T BE COMPLETED

1. We had plans of doing email verification and signup with google but we had problems with django social auth and due to lack of time we couldn't accomplish it.
2. Notifications were to be send via email before auctions started and as this is dependent on previous step we couldn't complete this.

## GITHUB REPOSITORY

[Group 17  Section B ASE](#)

## TESTING

### Monkey Testing

Monkey testing was performed on all the components completed.

### Blackbox Testing

Blackbox testing was performed on all the components.
